Grains 	Rice, Pasta, Crackers, Bread, Cereal, Oatmeal, Tortillas, Quinoa, Barley, and Noodles.	5	8	11	14	17	20

Points

Points are a guide to help pantries meet the HPNAP required minimum 3 day meal package offering. Pantries are welcome to increase the amount of points available but the minimum must be offered. Remember: points need to be offered but clients don't have to take foods they won't use or can't eat.

To Assign Points

Determine the amount of servings in a package and assign points based on the number of servings at a rate of 1 point for every 4 servings.

Meats

1 pound of meat = 4 servings (usually).

Fresh Produce

Fresh fruits and vegetables will vary in points based on size. Use your best judgment to determine what amount of a product would be equivalent to 4 servings to create 1 point.

Canned & Packaged Goods

Use the "Serving Size" nutrition label to determine how many servings are in each package.

Incentivize Slow Moving or Healthier Products

Use promotional materials like "sale" or "take one get one" to encourage people to take slow moving items. You may also reduce points on a slow moving item.

Items that Don't Qualify for Points in the Nutritional Package:

- Items high in sugar (e.g. jam, jellied cranberry or maple syrup).
- Juice from concentrate. Juice must be 100% to be counted in a package.
- Soups with less than 7g of protein per serving.

Pantries can offer any food products, including extras, and non-nutritious items.

Food Bank of Central New York's packing guide supports MyPlate.gov.
